To comply with the Missouri River Protection and Improvement Act of 2000, Title IX of the Water Resources Development Act of 2000, the Missouri River (South Dakota) Task Force shall advise the Secretary of the Army on a plan and projects to reduce siltation of the Missouri River in the State of South Dakota and to meet the objectives of the Pick-Sloan program. The Task Force will prepare and approve a plan to promote conservation practices in the Missouri River watershed, control and remove sediment from the Missouri River, protect recreation on the Missouri River from sedimentation, and protect Indian and non-Indian historical and cultural sites along the Missouri River from erosion. They will also develop and make recommendations for the implementation of critical restoration projects that meet the goals of the plan and determine if these projects primarily benefit the Federal Government.
